

Would you like to join a Destination Imagination Team?

Do you like to create new things?

Do you like to build or design new inventions?

Do you like to paint or draw? Design scenery?

Act or improvise? Write or compose?

Do you look at things differently than others around you?

Do you like to work with a team? Looking for a something different?

TRY DESTINATION IMAGINATION.

**Come to a meeting to find out what it all about. Bring a friend!
Look over the overview of this year's challenges.**

What will the "DI" year be like?

November – form a team and choose a challenge.

December – meet once a week and practice problem solving and teamwork skills.

January/ February – meet twice a week to create your solution to the challenge.

March – present your solution at a FUN Tournament.

April – The top solutions in the state meet at the State Finals Tournament.

May – If your solution is the state's best, you go to Global Finals in Tennessee!

Anyone can be on a team. These are the only rules:

You need to keep up with your schoolwork even though you are busy on a team.

You must show you are a good team member by making all the meetings.

You must show good sportsmanship and follow the "DI" rules.

You must not allow anyone to help you or "Interfere" with your team's ideas and work.

What do I tell my parents about "DI"?

Parents will be invited to a meeting so they understand the goals and "DI" philosophy.

Parents need to understand the "Interference" rules. They can't help you solve your challenge.

Parents can help provide transportation.

Parents can be great resources and teach the team skills needed.

Parents can make sure you attend your meetings.

Parents can be your team's important volunteer at the tournament.

Parents should be a source of support and help cheer the team on.

DI is FUN.
